Hyderabad, India 500047 | monalahansikanaidu@gmail.com | +91 – 8639149597

PROFESSIONAL SUMMARY

Accounting professional with over 3 years of cross-industry experience in payroll operations, UK taxation compliance, client relationship management, and marketplace risk analysis. Currently pursuing the US CPA certification with three sections cleared — REG, TCP, and AUD — demonstrating command of federal taxation, auditing and attestation standards, and core business law. Brings a strong foundation in US GAAP, financial reporting, and regulatory frameworks, with a consistent record of delivering accurate, timely outcomes across multi-client payroll environments. Committed to translating regulatory complexity into clear, measurable results within audit and finance settings.

EDUCATION

US Certified Public Accountant (CPA)

2023 – Present

- Cleared **REG** (Regulation) – federal taxation, business law, and professional ethics
- Cleared **TCP** (Tax & Compliance) – advanced taxation strategy and regulatory compliance
- Cleared **AUD** (Auditing & Attestation) – audit procedures, evidence, and professional standards
- Scheduled to appear for **FAR** (Financial Accounting & Reporting)

Jain University

Master of Commerce (M.Com) – Professional Accounting and Finance

Bengaluru, Karnataka

2023 – 2025

WORK EXPERIENCE

ADP Private Limited

Senior Process Associate

Hyderabad, India

Nov 2023 – Present

- Processed end-to-end monthly payroll for multiple UK-based client accounts covering 500+ employees, sustaining on-time delivery and zero payroll errors across all cycles.
- Administered UK tax code configurations — including NI adjustments, P60/P45 processing, benefit-in-kind treatments, and HMRC coding notice updates — reducing client escalations related to tax mismatches consistently across cycles.
- Managed monthly compensation components per client account, covering statutory deductions, employer contributions, and variable pay, maintaining full HMRC compliance with zero penalty instances recorded.
- Resolved client payroll queries within agreed SLA windows, serving as the primary contact for regulatory clarifications and coding escalations across all assigned accounts.
- Identified and resolved recurring discrepancies per payroll cycle through earlier-stage data validation checks, cutting downstream correction requests considerably.

Radius Global Solutions

Senior Associate

Hyderabad, India

May 2023 – Nov 2023

- Managed a portfolio of client accounts with consistent SLA adherence across all service interactions, achieving strong quality scores in quarterly reviews.
- Led escalation resolution for high-priority client cases during tenure, reducing average resolution time through structured triage and cross-team coordination.
- Identified recurring compliance gaps across client workflows and implemented corrective measures that eliminated repeat SLA breaches within 6 weeks of deployment.

Amazon Development Centre India

SWAT Analyst

Hyderabad, India

Jun 2020 – Dec 2022

- Reviewed 200+ seller records per week, detecting anomalies, policy violations, and emerging risk signals across Amazon's marketplace, contributing to measurable improvement in risk flag accuracy over a 6-month period.
- Investigated high-priority escalations in collaboration with operations, legal, and compliance teams, documenting findings that informed corrective workflows and improved overall process accuracy.
- Maintained audit trails across 2,500+ case reviews over the engagement period, supporting internal audit reporting and enabling data-driven process improvement cycles.

PROJECTS

Working Capital Management – JSW Steel | *Financial Analysis, Ratio Analysis, Excel*

2024

- Analysed JSW Steel's working capital across **3 fiscal years (FY 2022–2024)**, applying operating cycle analysis, liquidity ratio evaluation, and trend analysis across **10+ current asset and liability line items**.
- Quantified a **5.6% decline in current liabilities** — from INR 70,000 crore in FY23 to INR 66,100 crore in FY24 — and modelled the net impact on working capital efficiency and short-term liquidity coverage.
- Tracked a **24.6% rise in net debt** (INR 59,345 crore to INR 73,916 crore, FY23–FY24), attributing the increase to working capital deployment and currency-driven fluctuations through detailed ratio decomposition.
- Recommended **3 targeted strategies** to optimise the cash conversion cycle and reduce short-term borrowing reliance, projecting a potential **10–12% improvement** in liquidity buffer strength.
